Judul Penelitian. Efektivitas Pengadaan Barang dan Jasa Berbasis Elektronik (E-procurement) Pada Fakultas Bahasa dan Seni Universitas Negeri Surabaya.

Penelitian ini bertujuan mengetahui pelaksanaan e-procurement dalam pengadaan barang dan jasa pada Fakultas Bahasa dan Seni.. Berdasarkan Perpres nomor 16 tahun 2018 tentang pengadaan barang dan jasa pemerintah, kebijakan pengadaan barang dan jasa adalah mengembangkan e-procurement melalui e-purchasing. Cara ini dilaksanakan menggunakan katalog elektronik dalam proses pemilihan barang dan jasa. Katalog elektronik menampilkan barang dan jasa yang dibutuhkan satuan kerja dengan spesifikasi dan harga yang bersaing. Metode analisis yang digunakan adalah analisis deskripsi/narasi dengan jenis penelitian kualitatif. Metode yang digunakan adalah interview kepada pejabat pembuat komitmen, pejabat pengadaan dan studi literatur. Hasil penelitian menunjukkan bahwa ada beberapa kendala dalam penerapan katalog elektronik. Belum semua barang dan jasa yang dibutuhkan satker terdapat dalam katalog elektronik. Pengadaan pada Fakultas Bahasa dan Seni masi sebatas kebutuhan elektronik . Masih terkendalanya fasilitas penunjang yaitu internet yang sering mati saat proses pengadaan. Belum banyak SDM yang terlibat dalam pengadaan. Sebagian besar pejabat pengadaan mengaku mendapatkan kemudahan dalam melaksanakan e-purchasing. Penelitian ini berguna bagi pengambi kebijakan terutama pimpinan Fakultas Bahasa dan Seni untuk membuat kebijakan terkait pengadaan barang dan jasa. Penelitian ini juga berguna untuk pejabat pengadaan dan pejabat pembuat komitmen dalam memenuhu kebutuhan barang/jasa di satuan kerja.komitmen dalam memenuhu kebutuhan barang/jasa di satuan kerja.

ABSTRACT

Research Title. Effectiveness of Electronic Goods and Services Procurement at the Faculty of Language and Art, Surabaya State University.

This research aims to find out the implementation of e-procurement in the procurement of goods and services at the Language and Arts Faculty. Based on Presidential Regulation number 16 of 2018 concerning procurement of government goods and services, the policy of procurement of goods and services is to develop e-procurement through e-purchasing. This method is carried out using an electronic catalog in the process of selecting goods and services. Electronic catalog displays goods and services needed by work units with competitive specifications and prices. The analytical method used is description / narrative analysis with the type of qualitative research. The method used was interviews with commitment-making officials, procurement officials and literature studies. The results showed that there were several obstacles in the application of electronic catalogs. Not all goods and services needed by the satker are in the electronic catalog. Procurement at the Language and Arts Faculty is still limited to electronic needs. Support facilities are still constrained, namely the internet which often dies during the procurement process. Not many human resources have been involved in procurement. Most of the procurement officials claimed to get the convenience in carrying out e-purchasing. This research is useful for policy makers, especially leaders of the Faculty of Language and Arts to make policies related to the procurement of goods and services. This study is also useful for procurement officials and officials making commitments in meeting the needs of goods / services in the work unit. Commitment in meeting the needs of goods / services in the work unit.
